11. The Fellow agrees to be present in the Hospital or other assigned clinical area and available for work at such places and at such times as assigned by the Program Director. The Hospital recognizes that long work hours extending over an unreasonably long period of time are not consistent with the primary objective of graduate medical education or the efficient delivery of high quality patient care. The Program Director is responsible for the fair scheduling in the learning and working environment. This includes provision of adequate off-work hours in accordance with the Accreditation Council for Graduate Medical Education (ACGME) or other accrediting body work hours standards currently in effect. Moonlighting is addressed by policy, which is found in the Resident/Fellow Handbook.

At any point during the Fellowship, the Fellow may be required to undergo a fitness for duty evaluation which may include a physical or mental health and/or a drug/alcohol evaluation. Additionally, every fellow is required to undergo a criminal background check, PA Child Abuse Clearance and FBI Fingerprint Clearance. A Fellow who refuses to submit to or fails these evaluations and/or background check will have his/her Letter of Agreement rescinded.
13. In all matters of day-to-day activities of professional care and relationships with the Hospital Administration, Nursing or Medical Staff, the Fellow has the right of appeal according to the grievance procedure described in the Resident/Fellow Handbook. The Fellow agrees to aid the Hospital, its Graduate Medical Education Committee and the VP/Chief Academic Officer in the contact, orientation and information of prospective applicants for fellowship in the Hospital, when such aid does not interfere with her/her own educational responsibility.

15. The Fellow agrees to cooperate with and participate in the Hospital's quality management, utilization management, patient safety and risk management activities.
16. The Hospital agrees to furnish a certificate of service to the Fellow upon successful completion of his/her training experience with the Hospital and to maintain a file for future recommendations based upon the judgment of the Hospital and its Medical Staff.
17. When applicable, this Agreement shall be subject to the approval of the State Board of Medicine or State Board of Osteopathic Medicine.
18. This Agreement is intended to cover aspects of the relationship between the Hospital and the Fellow except those specifically stipulated by the relevant specialty board or review committee.
19. At all times during this Agreement, the Fellow shall be considered a student physician enrolled in the Hospital's clinical fellowship program and nothing in this Agreement or in the relationship between the Hospital and the Fellow should be construed as creating a contract an employment relationship.
