

# WellSpan Health

## 2025-2027

## Radiography Program Catalog

# Mission Statement

WellSpan Health Radiography Program's mission is to prepare competent, entry-level radiographers who can function within the healthcare community. The school is guided by the mission statement, values, and strategies of WellSpan Health.

## Student Learning Goals

### **Goal #1: All students will be clinically competent.**

- Students will utilize appropriate positioning skills and appropriate technique factors
- Students will employ appropriate radiation protection
- Students will apply appropriate patient care

### **Goal #2: All students will demonstrate critical thinking and problem-solving skills within the clinical environment.**

- Students will evaluate diagnostic images and determine appropriate corrections
- Students will modify routine radiographic skills to accommodate various patient conditions and other variables

### **Goal #3: All students will practice effective communication.**

- Students will conduct appropriate professional oral communication skills
- Students will apply appropriate professional written communication skills

### **Goal #4: All students will recognize the importance of professionalism.**

- Students will practice appropriate professional attitudes and ethical behavior
- Students will identify the benefits of professional membership

## Program Effectiveness

- **Program Completion Rate**
- **Credentialing Examination Pass Rate**
- **Employment Rate**

## Welcome

### Radiography - A Career

Radiographers are healthcare professionals educated in the use of ionizing radiation who work in a technically advanced, ever-changing environment. The radiographer's responsibilities include the performance of x-ray examinations under physician direction, delivering excellent patient care, and performing quality radiologic exams with the use of radiographic equipment, computers, and other imaging tools.

Radiographers are exposed to a variety of patients, including the critically ill and injured. Individuals interested in pursuing a career in radiography must possess compassion, superb interpersonal skills, and the desire to work with advanced technology.

### History

WellSpan Health has been dedicated to educating radiography students since 1967, and proudly offers a hospital-based radiography certificate program to York County, Adams County, and its surrounding areas. WellSpan Health's commitment to educating students, combined with its state-of-the-art facilities provides a classroom and clinical settings conducive to a successful learning environment.

### Program Description

WellSpan Health Radiography Program offers a 23-month hospital-based certificate program accredited by the Joint Review Committee on Education in Radiologic Technology ([www.jrcert.org](http://www.jrcert.org)). The program is currently accredited for 8 years.

Class size is limited to 20 students per year with a new class starting the 3<sup>rd</sup> week of August, running 23 months, and ending the last week of May.

Didactic classes are offered at York Hospital Imaging Center.

Classroom and clinical education are offered:

- Monday through Friday, 7:00 - 7:30 to 3:00 -3:30 (regular scheduled hours)
- Select evening hours not to extend past 11:00pm

Clinical education sites consist of York Hospital (2.5 miles from school), York Hospital Imaging Center (school location), Gettysburg Hospital (32 miles from school), York Hospital/WellSpan East York Diagnostic (6.3 miles from school), WellSpan Health & Surgery Center (20 miles from school), WellSpan Imaging Dover Health Center (10 miles from school), and WellSpan Interventional Pain Management (1.5 miles from school).

The program's clinical sites offer a wide range of opportunities for radiography students to receive hands-on experience and clinical development in the following areas:

Thoracic	Mobile (Portable) Radiography	Head and Neck
Abdominal	Evening hours	Spinal
Extremity	Surgical Radiography	Fluoroscopy
Pelvic	Trauma Radiography	

Through the combination of classroom instruction and clinical education, students develop and improve upon critical thinking and problem-solving strategies, as well as, continually develop professionalism and ethics necessary for the health care environment. The program's curriculum follows the ASRT's curriculum guidelines (recommended by the JRCERT). This curriculum is essential to graduating entry-level radiographers.

Because of specific competency requirements and exam schedules, part-time and/or evening hours are not available. Interested applicants should be prepared to enter a full-time (40-hour week) educational/clinical setting. They will receive three weeks of vacation each year; one week at Christmas/New Years, one week for spring break in the 1<sup>st</sup> year, and one week in July (please see program's Academic Calendar).

## National Registry Examination

Once a student graduates from WellSpan's Radiography Program, they are eligible to work as an entry-level radiographer. For a graduate to become a registered radiologic technologist, they must successfully pass the National Registry Examination offered through the American Registry of Radiologic Technologist ([www.arrt.org](http://www.arrt.org)). New graduates are encouraged to take the registry examination shortly after program completion. Graduates must ensure they meet all ARRT examination requirements or risk being ineligible for the exam.

**Please note:** To be eligible to sit for the National Registry Examination offered through the ARRT, the participant will need to have an associate, baccalaureate, or graduate degree from an institution accredited by a mechanism acceptable to the ARRT.

For this reason, WellSpan's Radiography Program is proud to offer an articulation agreement with the following colleges/universities:

- York College – Bachelor of Science degree in Radiography
- Commonwealth University/Bloomsburg – Medical Imaging Bachelor of Science degree
- Gwynedd Mercy University - Bachelor of Science Degree in Radiologic

Students complete two years of academic preparation through York College, Bloomsburg University or Gwynedd Mercy University followed by WellSpan's twenty-three-month radiography program.

Student acceptance into WellSpan's Radiography Program is at the discretion of WellSpan Radiography Program's admission committee and is not guaranteed.

Please contact Elizabeth Shearer, MS, York College Department of Health Professions Chair, [eshearer1@ycp.edu](mailto:eshearer1@ycp.edu) 717.815.1530 or visit the York College website [www.ycp.edu](http://www.ycp.edu) for more information regarding course curriculum and schedule.

Please contact Dr. Jennifer Venditti, Ph.D. Commonwealth University Allied Health Program Coordinator, [jvenditt@commonwealthu.edu](mailto:jvenditt@commonwealthu.edu) 570.389.4780 or visit their website [www.commonwealthu.edu](http://www.commonwealthu.edu) for more information regarding Medical Imaging B.S. course curriculum and schedule.

Please contact Joy Fox, BS, RT(R)(M)(QM)(CT), Gwynedd Mercy University Campus Coordinator - Radiologic Technology & Medical Laboratory Science, [fox.j@gmercyu.edu](mailto:fox.j@gmercyu.edu) 215.542.4654 or visit the Gwynedd Mercy University website [www.gmercyu.edu](http://www.gmercyu.edu) for more information regarding course curriculum and schedule.

**Please note:** Individuals who have been convicted of a felony or misdemeanor may have violated the American Registry of Radiologic Technologists Rules and Ethics and may be considered ineligible to sit for the national board examinations. Those with questions regarding eligibility are encouraged to submit a pre-application form to the ARRT before entering an approved educational program. This form may also be submitted after an individual has been enrolled. Requests for pre-application forms must be requested through the ARRT by calling (610)-687-0048.

## Program Accreditation

WellSpan Health Radiography Program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). WellSpan's Radiography Program goals

are based on the JRCERT Standards. Copies of the standards are available in the school's office for applicant review at any time or the JRCERT.org website.

WellSpan/ York Hospital Radiography Program current accreditation status: 8 years

**Joint Review Committee on Education in Radiologic Technology**

20 North Wacker Drive, Suite 2850

Chicago, IL 60606-3182

(312) 704-5300

Email: [mail@jrcert.org](mailto:mail@jrcert.org)

Program effectiveness data is available on the program's website and through the JRCERT website. The JRCERT URL address can be found on the program's website front page. The Program's website: <https://www.wellspan.org/For-Healthcare-Professionals/Education-and-Development/Professional-Training/Radiography>

## **Program Admission**

All applicants are considered for admission without regard to: race, creed, color, national origin, marital status, gender, age, sex, sexual preference, sexual origin, or disability; provided the applicant can meet the requirements of the program (please see Technical Standards).

The program shall protect the confidentiality of student records as dictated by the Family Educational Rights and Privacy Act (FERPA) and shall release no information absent written consent of the student unless required to do so by law or as dictated by the terms of this agreement.

Admission selection is competitive and includes but is not limited to the following:

Academic ability

References

Writing composition

Work and personal experiences

Interview performance

WellSpan's Radiography Program reserves the right to deny admission or readmission to any applicant if the program believes future admission is not in the best interest of the student and/or program.

### **Please Note: Transfer Credits**

- WellSpan Radiography Program will review credits and/or clock hours from other accredited institution but does not guarantee acceptance and/or transferrable credit/clock hours for the program.
- Students are required to successfully complete all program courses.
- WellSpan Health Radiography Program is non-credit granting.

To be considered for admission into the program, applicants must meet the following requirements. Applicants accepted into the program must continue to meet these requirements.

### **Technical Standards**

To participate in the clinical education portion of the program, the applicant must possess additional non-academic skills. These technical standards are consistent with the duties of the entry-level radiographer in a professional position. **These standards are not limited to, but include:**

- **Communication** – verbal and non-verbal communication between patients, co-workers, visitors and physicians. Must be able to read, write, and speak the English language and communicate in an understandable manner.
- **Auditory Skills** – hearing a patient's, co-worker's or visitor's request for help, and taking instructions from physicians and supervisors.
- **Psychomotor Skills and Coordination** – performs physical movements required in lifting and moving patients and handling radiographic equipment.
- **Visual Acuity** – reading instructions, books, computer screens, technique charts, and patient requisitions with extreme accuracy. Must be able to view images for accuracy.
- **Dexterity** – manipulating radiographic equipment and computer skills.
- **Emotional Maturity** – possesses emotional health necessary to fulfill program requirements, such as, integrity, compassion, initiative, and good judgment in stressful situations.

Conditions inhibiting the above listed technical standards may be reviewed by the admission committee. Every effort will be made to make reasonable accommodations when necessary.

## **Academic and Admission Requirements**

### **Program Prerequisites**

Students enrolled are required to have an associate degree or higher or be eligible to receive an associate degree or higher upon completion of the program. The degree does not need to be health care related; however, WellSpan's Radiography Program has listed several prerequisite requirements for program entrance.

In addition, the program will only accept regionally accredited college degrees and credits, such as, Middle State Association of Colleges and Schools, New England Association of Colleges and Schools, North Central Association of Colleges and Schools, Northwest Association of Schools and Colleges, Southern Association of Colleges and Schools, and Western Association of Schools and Colleges.

### **College Course Selection**

College classes must be chosen from the following list to satisfy the program's prerequisite requirements. Program enrollment is contingent on passing all required courses with a 2.0 "C" or greater.

<b>Prerequisite</b>	<b>Requirements</b>
Mathematical Logical Reasoning	3 credit minimum

	“College Algebra” course or higher
Written/Oral Communication	3 credit minimum
Natural Sciences (A&P I, II with Lab, 4 credit per course)	8 credit minimum (A&P II may be completed summer semester of enrollment year)
Medical Terminology	1 credit minimum or Certificate

### Academic and Admission Requirements (Associate Degree Minimum)

- High School diploma or GED
- High School and/or college transcripts minimum 2.5 “C” overall average; 3.0 “B” is highly recommended
- College prerequisite courses with 2.0 “C” for each course; 3.0 “B” is highly recommended
- College prerequisites will need to be completed by the end of the summer semester of that enrollment year. Program enrollment is contingent on completing college course requirements before starting the program.
- Official transcripts of a completed Medical Terminology course must be received by the first day of school.
- Imaging Department Observation (3 hours minimum) if available due to observation restrictions
- Willingness to submit to a criminal background check upon program acceptance
- Upon program acceptance, the student will undergo a health assessment and verification of COVID/Flu vaccination status. If the student fails the health assessment they will be released from the program.

**Please Note:** Students are required to have an associate degree or higher or be eligible to receive an associate degree or higher upon completion of the program.

### Application Requirements

Applications are accepted until January 31<sup>st</sup> for the class starting in August the same year. Responsibility lies with the applicant to ensure the program receives all listed materials on or before the deadline. Information received after the January 31<sup>st</sup> deadline will not be considered for that year’s enrollment. **Applications are considered complete when the program has received all the following information:**

- \$35.00-dollar non-refundable application fee
- Completed application form (which includes the observation form)
- Official transcripts from all high schools and colleges listed on the application.
- Three completed reference evaluation forms
- Professional career statement
- Completed applications are valid for one year

## **Application Process**

- The admissions committee will review and consider all completed applicants.
- A numerical evaluation is used during the interview selection process to objectively select applicants.
- Interviews are held February through March. The application point system is based primarily on G.P.A., college course work, work-related experience, personal and volunteer experiences, and professional statement essay
- Eligible applicants are interviewed
- All interviewed applicants will be notified by e-mail of their final status (admitted, alternate, or not accepted) by May 1<sup>st</sup>
- Final selection is the responsibility of the program's Admissions Committee
- New classes begin the 3<sup>rd</sup> week in August

## **Post Acceptance / Pre-Start**

- Receipt of all official transcripts with appropriate GPA and completion of all college courses before program enrollment
- Maintaining college GPA average at or above 2.5
- Prerequisite course GPA at or above 2.0
- Non-refundable \$100 acceptance fee
- Completed and approved Criminal Background Check (PA State Police Record Clearance & FBI Fingerprint Clearance)
- Completed and approved PA Child Abuse History clearance
- Valid two-year health care provider CPR certification if possible. Arrangements through the program can be made to complete this requirement post enrollment.
- Documentation of personal health insurance
- Confirmation of required health screenings and immunizations, including reporting of COVID/Flu vaccination status. Documentation, screening and testing is completed and verified through York Hospital Employee Health.
- Allied Health Education: Tobacco use policy for applicants to AHED programs
  - It is becoming a common trend that employees who work in health care will not be allowed to use tobacco. WellSpan has already made this a requirement for new applicants.
  - Therefore, following the guidelines as put forth for WellSpan employees, applications to Allied Health Education Programs will not be accepted if the applicant uses tobacco in any form, including the use of electronic cigarettes (E-cigs). Students must remain tobacco-free during the entire program. Furthermore, if a student presents to the clinical area "smelling like smoke", the student will be asked to leave the clinical area until the odor is resolved.
  - This statement must be included in the student handbook and be made known to the applicant as part of the application process to the program. Applicants will be required to sign a separate document that they are tobacco free, or they will be required to sign a document that they have read and agree to the policies contained in the student handbook.

- Professional Liability Insurance. WellSpan Health Radiography Program (YH) will provide liability insurance for students. The limits of the policy shall be a minimum of \$1,000,000 per claim and an aggregate of \$3,000,000 per occurrence. This policy will remain in effect for the duration of the Program.
- Student must provide their own transportation to geographically dispersed clinical settings.
- Evening/weekend clinical assignments

Accepted students who fail to meet the above-mentioned requirements will not be permitted to enter the program.

### **Applicant Cancellation**

Applicants can withdraw their file for review at any time. Any applicant's file that is withdrawn by applicant request may reapply to the program later. Incomplete applications are not reviewed by the Admission Committee.

## **Curriculum**

### **Curriculum Outline**

*Curriculum: Finals will be given at the end of each semester.*

#### **Fall 1<sup>st</sup> Semester (21 weeks)**

- Radiologic Clinical Practicum I
- Introduction to Radiography (Orientation)
- Radiographic Anatomy I
- Radiographic Procedures I
- Patient Care, Pharmacology, Human Diversity & Ethics
- Radiologic Physics I (Radiation Production & Characteristics)

#### **Spring 2<sup>nd</sup> Semester (20 weeks)**

- Radiologic Clinical Practicum II
- Radiographic Procedures II
- Radiographic Anatomy II
- Radiologic Physics II (Radiation Production & Characteristics)
- Basic Principles of Computed Tomography
- Image Analysis I

#### **Summer 3<sup>rd</sup> Semester (11 weeks)**

- Radiologic Clinical Practicum III
- Pathological Report and Presentation
- Image Analysis II

#### **Fall 4<sup>th</sup> Semester (21 weeks)**

- Radiologic Clinical Practicum IV to include evening rotations
- Advanced Radiographic Procedures I
- Radiobiology and Radiation Protection I

- Principles of Exposure and Image Production

**Spring 5<sup>th</sup> Semester (20 weeks)**

- Radiologic Clinical Practicum V to include evening rotations
- Advanced Radiographic Procedures II
- Radiobiology and Radiation Protection II
- Imaging Equipment
- Digital Image Acquisition
- Registry Review

**Course Description**

**Introduction to Radiography (Orientation)**

**23 hrs**

The course is designed to provide an overview of the radiographer's role within a health care system. The student will review radiography equipment and become familiar with the radiographer's roles and responsibilities within a health care organization(s).

***Prerequisite: Hospital Orientation***

**Patient Care & Pharmacology**

**73 hrs**

The course is designed to provide the basic concepts of patient care, including consideration for the physical and psychological needs of the patient and family. Routine and emergency patient care procedures, basic pharmacology, venipuncture, and administration of intravenous medications will be described. Appropriate techniques pertaining to the delivery of patient care will be emphasized.

This course will also provide basic Human Diversity and fundamentals medical ethics to better understand patients, patients' families, and professional peers.

***Prerequisite: Hospital Orientation***

**Radiographic Anatomy**

**138 hrs**

This course is designed to establish thorough knowledge pertaining to anatomical structures and systems most often evaluated through general radiography. Components include skeletal system and structures, respiratory system, digestive system, urinary system, and vascular system. This course is also designed to introduce concepts related to disease, etiology considerations, and the pathophysiologic disorders that compromise healthy systems.

***Prerequisite: Preceding Radiographic Anatomy course***

**Radiographic Procedures**

**225hrs**

This course is designed to provide a knowledge base necessary to perform standard imaging procedures. Consideration will be given to the production of images of optimal diagnostic quality. Laboratory experience will be used to complement the didactic portion. This course will provide an in-depth study of all radiographic procedures.

***Prerequisite: Preceding Radiographic Procedures course***

**Radiographic Physics (Radiation Production and Characteristics)**

**123 hrs**

This course is designed to establish a basic knowledge of atomic structure and terminology. Also presented are the nature and characteristics of radiation, x-ray production and the fundamentals of photon interactions with matter. This course is designed to establish a knowledge base in radiographic equipment requirements and design.

***Prerequisite: Introduction to Radiography; Preceding Physics course***

Basic Principles of Computed Tomography

**45 hrs**

Content is designed to provide entry-level radiography students with principles related to computed tomography (CT) imaging.

***Prerequisite: None***

Image Analysis

**69 hrs**

This course is designed to provide a basis for analyzing radiographic images. The course will include the importance of minimum imaging standards, a discussion of problem-solving techniques for image evaluation, and the factors that can affect image quality. The student will evaluate images for quality throughout the course.

***Prerequisite: Introduction to Radiography; Radiographic Procedure***

Pathological Report and Presentation

**40 hrs**

The pathology report with presentation is a self-directed project designed to enhance student knowledge of pathological conditions diagnosed and monitored through general radiography exams. In addition, the student will demonstrate effective research analysis skills, as well as, effective written & oral communication skills.

***Prerequisite: Radiographic Procedure & Radiographic Anatomy***

Advanced Radiographic Procedures

**96 hrs**

This course is designed to provide a knowledge base necessary to perform standard imaging procedures, including basic computed tomography (CT) and special studies. Consideration will be given to the production of images of optimal diagnostic quality. Laboratory experience will be used to complement the didactic portion. This course will provide an in-depth study of all radiographic procedures.

***Prerequisites: Radiographic Anatomy, Radiographic Procedures; Preceding Advanced Radiographic Procedures***

Radiobiology and Radiation Protection

**78 hrs**

This course is designed to provide the principles of the interaction of radiation with living systems. Radiation effects on molecules, cells, tissues and the body are presented. Factors affecting biological response are presented, including acute and chronic effects of radiation. Radiation protection is presented and includes the responsibilities of the radiographer for patients, personnel and the public, which includes federal and state safety requirements.

***Prerequisite: Radiographic Physics***

**Imaging Equipment**

**21 hrs**

This course is designed to establish knowledge in radiographic, fluoroscopic, mobile and tomographic equipment requirements and design. The content will also provide a basic knowledge of quality control.

***Prerequisites: Radiographic Physics; Basic Principles of Computed Tomography; Radiobiology and Radiation Protection***

**Principles of Exposure and Image Production**

**41 hrs**

This course is designed to establish a knowledge base in factors that govern the image production process. Imaging with related accessories will be emphasized. Class demonstrations/labs are used to demonstrate application theory.

***Prerequisite: Radiographic Physics***

**Digital Image Acquisition**

**39 hrs**

This course is designed to impart an understanding of the components, principles and operation of digital imaging systems found in diagnostic radiology. Factors that impact image acquisition, display, archiving and retrieval are discussed. Principles of digital system quality assurance and maintenance are presented.

***Prerequisite: Principles of Exposure and Image Production; Radiography Practicum***

**Registry Review**

**40 hrs**

This course is designed to prepare the student for the ARRT Registry Exam in Radiography. Simulated Registry Exams and Primary Assessment Series are available on computers and in booklets for students to practice the ARRT examination.

***Prerequisites: All previous courses***

**Radiography Clinical Practicum**

**1556 hrs**

Through structured, sequential, competency-based clinical assignments students learn concepts of team practice, patient-centered clinical practice, and professional development. Clinical practice is designed to provide patient care and assessment, competent performance of radiologic imaging and quality management. Clinical rotations are designed to provide students with the tools and experience necessary to achieve competency in performing radiologic examinations using a variety of different equipment. ***Prerequisites: Each preceding Clinical Practice course; Hospital Orientation Program; Introduction to Radiography***

**Total Clock Hours: 2619**

**Total Practicum Hours: 1568**

**Total Theory Hours: 1051**

Gwynedd Mercy University  
[fox.j@gmercyu.edu](mailto:fox.j@gmercyu.edu) 215.542.4654

**Program Fees and Expenses**

**Tuition**

- Non-refundable application fee - \$35.00 dollars
- Lab fees (which includes tuition, activity, and graduation fees) - \$21,000.00 total paid in installments each semester

**Text Books**

- Book fees - approximately \$1,500.00

**Uniforms**

- All students are required to wear uniforms. The required uniforms will be purchased separately by the student. Specific details are given upon acceptance.

### **Financial Aid**

- WellSpan Health Radiography Program does not participate in Title IV Financial Aid and Federal financial aid is not available. Accepted applicants are responsible for satisfying tuition and other fees associated with the educational program.

### **Veteran Education Benefits**

- WellSpan Radiography Program is approved to offer training to veterans and other eligible dependents under the VA educational benefit programs. The individual program will obtain written records on a VA beneficiary's previous education and experience and complete an evaluation. The program generally does not grant credit for previous radiography training, and requests for such must be addressed to the program director. The program will notify the VA of any change in the enrollment status of students certified to receive Veterans educational benefits. This would include when the student is placed on attendance or academic probation, changes in scheduling or termination of training. The program will maintain grade records which are updated on a semester basis. VA students who are due a refund, will have the monies reimbursed within 40 days of the last day of attendance.

### **Personal Medical Insurance**

- Enrolled students are required to carry personal medical insurance with a carrier of their choice.

### **Additional Admission Fees**

- Pre-admission health assessment
- Pre-admission child abuse, PA State Police and FBI fingerprint clearances

**\*The listed fees and expenses are subject to change. Please call the program to confirm current costs.**

## **Program Completion**

### **Graduation Requirements**

The radiography student must meet the following requirements to graduate from the program:

- Accomplish the program's objectives, goals and requirements.
- The participant will need to have an associate, baccalaureate or graduate degree from an institution accredited by a mechanism acceptable to the ARRT to be eligible to sit for the registry exam.
- The student must complete all courses.
- The student must receive a cumulative didactic and cumulative clinical average of 85% (B) or higher.
- The student must receive an 85% (B) or higher on (1) Mock Registry.
- All fees and expenses owed to the program must be paid. Students are responsible for all costs associated with semester enrollment. Radiography program transcripts

and certificate of completion will be withheld until all financial obligations to the program are met. If a student does not receive their certificate of program completion, they are not released from the program and cannot sit for the national registry exam administered by the American Registry of Radiologic Technology. The student must be compliant with program policies regarding attendance, ethics, policies and procedures.

- Return parking "hang tag," ID badges and radiation badges

## **Resources and Outcomes**

### **Student Resources and Services**

The program has support services and resources to meet its educational program and administration requirements.

#### **Computer and Internet Access:**

Students have log-in access and a WellSpan Microsoft email account. Students have access to all WellSpan computers.

The classroom has computers available to all students.

Email, internet, computer access to educational material is available from any organizational computer. Computers can be used to review learned material.

Students have access to Microsoft 365 free of charge.

Wifi is available to students' class and clinical locations.

#### **Library and Research Center:**

WellSpan has a Medical Library/Research Center. The library is located at York Hospital and is open Monday through Friday, 8:00 am to 4:30 pm.

#### **Health Assessment and Vaccinations:**

WellSpan provides a pre-matriculation health assessment. The health assessment and vaccination review are provided by WellSpan Employee Health. Yearly influenza vaccination is free and mandatory, with approved exceptions for medical and/or religious reasons.

#### **CPR Certification:**

The student will be American Heart Healthcare Provider CPR certified. The training is free to the enrolled students. This training will be scheduled once the student has been accepted and started the program.

#### **Personal Counseling:**

Students who desire personal counseling should contact their private physician for recommendations for counseling services. WellSpan has partnered with Quest Behavioral Health. Quest has a broad network of licensed clinicians to meet behavioral health needs. Please check with your health care provider for your approved health care network counseling providers and coverage.

**Care managers are available 24/7 for urgent clinical concerns.**

### **Accommodations for Disabilities:**

If a student has a documented learning, psychological or physical disability, the student may be entitled to reasonable academic accommodations for services. To request accommodations or services, contact the Program Director. All students are expected to fulfill essential course requirements which cannot be waived.

### **Other Student Resources:**

The program purchases online registry review material for students each year. This provides the student access to registry review material to prepare for the ARRT registry exam.

The program provides registry review class time and material to prepare for the ARRT registry exam.

Students complete personal safety training modules, epic training sessions, and other learning modules provided by WellSpan.

The program classroom has resources material and journals available to students and faculty.

<i><b>Resources/Service</b></i>	<i><b>Support</b></i>
<b>Library/Research Center</b> The library is open Monday through Friday, 8:00 a.m. to 4:30 p.m. Contact number: (717) 851-2495	Library purchases, research, computer, and internet capabilities
<b>Planning/Marketing</b>	Copies material and publishes program material
<b>Computer Laboratory Classroom</b> Classroom hours: M-F 8-4	E-mail, internet, computers access; faculty and students have access to instructional resources and educational information from any computer within the organization; Computers can be used to review learned material. The program's classroom has computers available to all students.
<b>Employee Health Services</b> Hours of operation: M – F 7-4 (717) 851-2908	Health maintenance programs and referral to local health care providers
<b>Quest Behavioral Health Administration</b> 1-800-364-6352 or <a href="http://www.questbh.com">www.questbh.com</a> Mon – Fri 8:00 am – 5:00 pm <b>Care managers are available 24/7 for urgent clinical concerns.</b>	Quest Behavioral Health manages mental health and substance use disorders. Please check with your health care provider for your approved health care network counseling providers and coverage.

<b>Educational Seminars/Registry Exam</b> The program purchases online registry review material for each student 6 m before graduation	Provides education for faculty and learning opportunities for students and faculty
<b>Additional reference and review books</b>	Improves faculty and students' education

## Professional Development

WellSpan Health offers variety and continual opportunities for imaging professional career development. Mammography, computed tomography, magnetic resonance imaging, nuclear medicine, radiation oncology, ultrasound, cardiovascular imaging, and interventional radiography are areas of professional career development available to general radiographers. Students enrolled in the radiography program will have the opportunity to observe many of these specialized areas. If a radiography program graduate wishes to enter one of these specialized areas, additional education and /or job training will be required.

The program offers job assistance with the following:

Resume writing with examples

Cover Letters

Interview techniques/ preparation

## Application for Admission

The program's Application for Admission is available and can be downloaded from our website: [www.wellspan.org](http://www.wellspan.org). Search WellSpan Health Radiography Program.

For those interested in applying to the radiography program without internet access, please contact the program by calling: 717 812-3599. Please leave a voicemail message with name, mailing address, and proper spelling.

## Program Effectiveness

The program's effectiveness data is available on our website:

[www.wellspan.org](http://www.wellspan.org). Search WellSpan Health Radiography Program

The average salary for a radiologic technologist in Pennsylvania is around \$59,640 per year. (<https://www.careerexplorer.com/careers/radiologic-technologist/salary/pennsylvania/>)

Graduation Rates	2024	6/6 students	100%
Credentialing Examination Rate ARRT	2024	6/6 students	100%
Employment Rate	2023	8/8 students	100%

The program does not guarantee job placement.

## WELLSPAN HEALTH RADIOGRAPHY PROGRAM

### DISCIPLINARY ACTION PROCEDURE

It is the right and responsibility of the radiography program to maintain discipline and efficiency.

**The following list of offenses illustrates actions, which will be considered willful misconduct:**

1. Dishonesty, falsification or misrepresentation, cheating
2. Breach of confidentiality to include any patient related information “**Refer to the Social Media Policy**”
3. Theft or sabotage of equipment or other property
4. Possession, sale or use of intoxicating beverages or illegal drugs on WellSpan Health property or reporting to class/clinical assignments under the influence of illegal drugs or intoxicating beverages.
5. Fighting or attempting bodily injury to others on organizational property; using abusive or threatening language to others
6. Solicitation
7. Unauthorized possession of firearms, weapons or explosives on the organization’s property
8. Misconduct related to patients, students and/or staff, such as, physical or mental abuse, inconsiderate treatment or neglect.
9. Insubordination, refusal, or intentional failure to complete assignments.
10. Harassment including sexual, racial, or general
11. Smoking (see nicotine policy)
12. Failure to report an accident, injury, or hazardous and unsafe situation
13. Unexcused absenteeism and/or tardiness
14. Other conduct considered illegal or immoral acts
15. Infraction of either Program and/or Organizational policies and procedures

**The above list includes but is not limited to offenses considered to be serious misconduct. Disciplinary action for the above and similar offenses may include:**

1. Anecdotal Record
2. Oral Warning
3. Written Warning
4. Notice of Suspension
5. Notice of Termination

Termination may occur at the first occurrence. Suspension and termination may be recommended by any faculty member and is subject to the approval of the program director and advisory committee.

## **ATTENDANCE POLICY**

### **I. Weekly Hours**

- Students are required to be present for all didactic and clinical education hours, which do not exceed 40 hours per week.

### **II. Vacations/Holidays**

- See academic calendar

### **III. Absenteeism**

- All students will be given four (4) occurrences of unexcused/unscheduled benefit time per academic year. Consecutive days are considered only one occurrence.
- If absent for three consecutive unexcused days the student must return with a doctor's excuse. If the student fails to return with a doctor's excuse the student will be docked for another occurrence.
- If a student calls off sick for any hours of a scheduled day, they are not permitted to report for the rest of the day.
- If a student calls off sick during scheduled evening hours, they are required to make-up those evening hours and will lose 7 hours of benefit time. This is considered an unscheduled occurrence.
- If an occurrence exceeds all benefit time and comp time of didactic or clinical days, the student must make up the missed clinical hours. The student is required to make up didactic assignments and tests. However, the faculty may request additional assignments or clinical rotations if they feel it is warranted.
- If the student exceeds four (4) occurrences of unexcused absences per academic year, disciplinary action will be taken.
- **Unused occurrences cannot be carried over into the next academic year.**

### **IV. Calling Off**

- When a student calls off on didactic or clinical time, they must e-mail all program faculty with reason for absence. Whenever possible, the student should e-mail within 30 minutes prior to start time.

### **V. Illness during School Time**

- If a student becomes ill or injured during clinical and/or didactic time, the student may ask the instructor to report to Employee Health Services for treatment or go home. (Benefit time can be used in one (1) hour increments.)
- In this situation the student is required to use benefit time and therefore will not be docked an occurrence of unexcused time.
- If the student has no remaining benefit time, they will be required to make-up the missed time.

## WELLSPAN HEALTH RADIOGRAPHY PROGRAM

### VI. Benefit Time

- All students will be given 91 hours of benefit time. The time can be used in 30 minute increments.
- **Benefit hours will be used for scheduled and unscheduled absences.**
- A scheduled benefit day must be requested one day in advance.
- Benefit time may not be used for evening rotations.
- If before the end of an academic year, the student reaches the 91-hour limit, time will be taken from comp time and student may not request any scheduled time off.
- If no comp time is available students are required to make-up time.

### VII. Comp Time

- Students will receive comp time for attendance at approved seminars, staff meetings, and career days.
  - ◆ Advanced notice is not required, except for evening rotations
  - ◆ Use of comp time in the evening requires one day advanced notice.
  - ◆ Comp time must be used in 30-minute increments except during evening rotations, in which a one-hour increment must be used
  - ◆ A total of 1 hour of comp time may be used during evening rotations per semester. The hour must be used at one time. No more or less comp time will be granted during evening rotations per semester.

### VIII. Tardiness

- All students must report to the approved faculty at the scheduled time.
- All students will be given three (3) tardy days per academic year. If the student is arriving late the student must e-mail or call the Radiography school at **812-3599**.
- On the days that the student will be tardy the student must report to school within a two (2) hour time frame or the student will be forced to use an entire benefit day. Regardless of when the student arrives within the two (2) hours the student will automatically be docked two (2) hours of benefit time.
- If the student has no remaining benefit time, they will be required to make-up the missed time, a minimum of 2 hours.
- If the student exceeds three (3) tardy days in an academic year disciplinary action will be taken.
- **Tardy days cannot be carried over into the next academic year.**

### IX. Appointments

- All appointments should be made on scheduled days off or after scheduled hours if possible.

## WELLSPAN HEALTH RADIOGRAPHY PROGRAM

### **X. Leave of Absence**

- Leave of absence or unplanned absence due to military leave, illness, injury, or pregnancy etc. is granted by the Program Director after evaluating all circumstances. The student must discuss an unplanned absence with someone directly. Messages are not acceptable.
- In the event of a leave of absence the student will be required to make up a minimum of 35 hours. However, the clinical coordinator reserves the right to increase/decrease the number of clinical make up days if the student's clinical performance/program progress warrants it. The student's remaining benefit time and comp time will be used toward the LOA make-up hours. Program faculty will discuss the options for making up any missed learning activities upon returning to class. Make-up time will not be scheduled in a manner that would require more than 40 hours per week, unless on a voluntary basis. The student may be required to make-up the time/activities missed at the end of the program to be eligible for graduation.
- Depending on the length of the leave, students may not be able to continue in the program immediately after the leave of absence for the following reasons:
  - Courses are sequential
  - Tuition payments are per semester, not per course
  - Time constraints

In this situation, the students may have the option to return the following year. This is subject to availability and at the discretion of the Program Director. The student must return to the program at the beginning of the missed semester. The student must complete the semester and each successive semester in its entirety.

### **XI. Cutting Classes**

- Cutting class is not permitted. This will result in disciplinary action. Refer to Disciplinary Action Procedure.

### **XII. Missed Classes and Clinical Time**

- It is the responsibility of the student to obtain all notes or material covered in class.
- It is the responsibility of the student to contact didactic instructors upon their return after an absence to discuss make-up plans for tests, etc. If students neglect to contact the instructor, 5 percentage points will be deducted from their test score.
  - Every attempt should be made to make up any test upon the day of return
  - If the test is not made up by the specified date a 0% will be the recorded grade.
- It is the responsibility of the student to inform the appropriate instructors of scheduled time off after requesting benefit time or using comp time. Disciplinary action will be taken if they fail to inform the appropriate clinical and/or didactic instructor.

## WELLSPAN HEALTH RADIOGRAPHY PROGRAM

### **XIV. Excused Absences**

- Jury duty
- Military leave - Reserves, National Guard duties
- Interviews - further schooling or job
  - Students are permitted 7 hours of interview related time.
  - On the day of the interview the student is to obtain a note from the prospective employer or school stating that they did attend an interview. The note should be on the institution's letterhead and signed by the interviewer. The note is to be given to the Program Director.
- Funeral Leave - A student may request a leave of absence of a maximum of three days. Proof of attendance required.
- Snow day – 7 hours is permitted per year to use in the event of inclement weather (snow and ice).

### **XV. Miscellaneous**

- Any questions regarding attendance should be brought to the attention of the Program Director and Clinical Coordinator in private.
  - Make-up time will be assessed on a case by case basis and at the discretion of program faculty.
  - Program semester requirements will not be adjusted for any missed clinical or didactic time.
  - The student should keep track of their own attendance so that no mistakes are made.
  - Accidents or serious illnesses will be dealt with on an individual basis.
  - Student's attendance record is confidential.
- 
- **After an extended leave, re-entry into the Program is at the discretion of the Program faculty.**
  - **If a student needs to leave during clinical time due to an emergency or illness, they must notify their clinical coordinator. In the event that their clinical coordinator is absent, they must leave a message with the Program Director.**
  - **Any student who abuses the attendance policy will be subject to immediate dismissal from the program. Examples of such abuse may include:**
    - **Consecutive use of occurrences (always calling off two or more days in a row)**
    - **A pattern of calling off at the beginning or end of a week for long weekends**
    - **Not adhering to program call-off procedure**
      - **E-mailing program faculty**
      - **E-mailing at least 30 minutes before scheduled attendance time**

## **CLINICAL POLICY**

### **I. Purpose:**

- The clinical policy shall provide the students and staff of the Imaging Services Department with a guide to follow during clinical hours.

### **II. Shift/Reporting in**

- 7:00 or 7:30 am to 3:00 or 3:30 pm. (regular scheduled hours)
- Approximate 1:00 pm to 11:00 pm evening hours in select semesters.
- Students must report in or call the clinical coordinator's phone at their assigned clinical educational setting. If the clinical coordinator is not in their office, the student must leave a message on their phone. In the absence of the clinical coordinator, the student must call the Radiography Program at **812-3599**. Students must call from one of the designated phones in the department not a cell phone.

### **III. Clinical Coordinator**

- Correlates and coordinates clinical education with didactic education and evaluates its effectiveness.
- Participates in didactic and clinical instruction.
- Supports the Program Director to assure effective program operation.
- Participates in the accreditation and assessment process.
- Maintains current knowledge of professional discipline and educational methodologies through professional development.
- Maintains current knowledge of program policies, procedures, and student progress.

### **IV. Clinical Preceptor**

- The ratio of students to clinical preceptor is 10:1. One full-time equivalent clinical preceptor is required for every ten students involved in the competency achievement process.

### **IV. Clinical Staff**

- The ratio of students to registered radiological technologists prior to student competency achievement in a given examination procedure shall not exceed 1:1.

### **V. Adherence to Health System Policies and Procedures**

- Students are to adhere to the WellSpan Health System policies and procedures while in training at the Radiography Program. Imaging Department policies are available to all Imaging Service employees and students through the Inet . See Departmental and Organizational Policies. This ensures the health and safety of students associated with educational activities are safeguarded through documented policies and procedures.

### **VI. Lead Markers**

- Right and left lead markers will be provided for each student. The student is responsible for their markers. Evidence of markers must be present on all images.
- Students may be subject to a fee to replace lost markers.

## VII. **Computation of Clinical Education Grade**

The clinical grade for each semester shall be determined based on the following:

### ➤ **Clinical Performance Evaluations**

These evaluations are used to assess the daily performance of the student in the clinical setting. **Five percent** of the student's clinical grade is derived from these evaluations.

- Students are evaluated as they progress through the stages in their clinical assignments.
- Performance evaluations will be used continually throughout the student's clinical education to evaluate the student's progress.

### ➤ **Clinical Competency-Based Evaluations**

- These evaluations are used to assess the student's skill and competency in completing procedures. **Forty-five percent** of the student's clinical grade is derived from these evaluations.

### ➤ **Clinical Progress Reports**

- **Fifty percent** of the student's clinical grade is derived from these reports. Personal observations of clinical performance by the clinical coordinators will

include the following categories:

- Cooperation and attitude
- Quantity of work
- Quality of performance
- Initiative
- Patient care
- Professional ethics
- Judgment
- Clinical records
- Communication
- Preparedness
- Clinical Final/Project (25 percent of progress report grade)
  - The clinical final is given first, second, fourth, and fifth semester
  - In the third semester, students will be required to complete a project

**Five percentage points will be subtracted from the overall Clinical Progress Report score for the following reasons:**

- **Failure to follow patient identification policies**
- **Supervision Policy**
- **Repeat Policy**
- **Failure to appropriately verify/follow physician orders**
- **Failure to ask pregnancy status**

## **DUE PROCESS POLICY**

### **Policy:**

This policy defines grievance, due process, appeals. It describes the program's orderly process for students to have grievances addressed in a timely manner.

### **Purpose:**

The purpose of this policy is to provide students with a system by which to grieve complaints of alleged injustices relating to violation, misinterpretation, or discriminatory application of **non-academic policies and procedures**, and/or the conduct of individuals.

### **Procedures: Complaint**

Students may notify school officials of situations they feel warrant review to improve the quality and process of school function by submitting a written complaint. The program director will make every attempt to reply to a complaint within five school days.

### **Procedures: Grievance**

There are four (4) levels of grievance procedures. Grievance resolution should begin at the first level, proceeding in sequenced steps.

The grievance procedure encourages resolution of these situations in a timely, organized, and honest way. The immediate supervisor (instructor and/or program director) and the aggrieved student should attempt to resolve the problem(s) through direct discussion of the issue(s). If a reasonable solution is not found, the student may institute the formal four step procedure as follows:

**Level 1:** The program recognizes the best approach is for grievances to be addressed directly with involved parties.

Level 1 is available if a grievance unresolved by a direct means, or if a student desires mediation.

- Initiation: Written request to a school official for mediation
- Mediation: A selected school official will mediate Level 1 grievance process
- Timeframe: Initiation: five days following written request  
Reply: five days following mediation

**Level 2:** If a resolution cannot be met at Level 1, then a written grievance is submitted to the Program Director who will consult with involved parties and render a documented response.

- Initiation: Within five (5) school days following a First Level Grievance.
- Submitted grievance must contain the following:
  1. Involved parties named
  2. Circumstances described fully.
  3. Efforts taken at Level 1 explained.
  4. If Level 1 was bypassed, reason(s) given.

The written grievance will not be accepted, nor time limits applied, until all information is provided.

If the Program Director is named as an involved party, the responsibility of the review will be addressed by York Hospital's Imaging Department Director.

A written Grievance Review decision and rationale shall be issued within five (5) business days of the review.

**Level 3:** If a Level 2 resolution is not acceptable a written request to have the grievance addressed at Level 3 submitted to the program director who will form an ad hoc Grievance Committee composed of not less than three individuals who were not previously involved. If the Program Director is named as an involved party, York Hospital's Imaging Department Director will form the committee.

- Initiation: Within three (3) school days following a Second Level Grievance Response.
- Composition of Committee: May include, but not limited to the following:
  1. Department Administration
  2. Team Leaders
  3. Staff Technologists
  4. School officials
  5. Instructors.
  6. HR representative
- Committee Chaired by one of the following:
  1. Program Director
  2. Department VP
  3. Individual designated by the Program Director or VP
- Submitted grievance must contain the following:
  1. Reason resolution at Level 2 was not satisfactory.
  2. Additional comments, if any, not included in original grievance.
  3. Resolution sought.
- The written grievance will not be accepted, nor time frames applied until all information is satisfactorily provided.
- Committee will conduct a meeting which all involved parties may be interviewed.
- Committee will render a documented response within five (5) business days following the committee meeting.
- Committee's response will be in a form of a recommendation to the Program Director.

**Committee's response may not violate, or by its content change WellSpan Health or program policies, or be non-compliant with JRCERT standards.**

**Level 4 (Grievance Review):** This level is outside of the program and radiology department. Level 4 is the final grievance level available to the student.

If a Level 3 resolution is not acceptable, a written Grievance Review is submitted to Radiology's Human Resource Specialist who will be responsible for process oversight and selecting an impartial individual (to be known as the Reviewer) to review and render a decision. Student must request a Fourth Level within five (5) business days of a Third Level decision.

- Initiation: Within three (3) school days following a Third Level Grievance Response.
- Submitted grievance must contain the following:
  1. Reason resolution at Level 3 was not satisfactory.
  2. Additional comments, if any, not included in original grievance.
  3. Resolution sought.
- HR Specialist will inform the Program Director of the request for the Fourth Level and provide a copy of the request.
- All pertinent school documents will be submitted to the HR Specialist within five (5) business days of receiving notification of the request for a Grievance Review.
- The Grievance Review will not begin until all information is provided.
- The review will take place within ten (10) business days following submission of Grievance Review request.
- Possible Outcomes:
  1. Uphold action.
  2. Reduce action; recommendation that the school reduce the severity of the disciplinary action.
  3. Overturn

**Reduction or overturn decisions must be compliant with WellSpan Health policies, program policies, and JRCERT standards.**

A written Grievance Review decision and rationale will be issued within five (5) business days of the review.

**Example:**

If a student is dismissed from the program because they did not meet our student progress policy and grading policy, they cannot continue in the program. The grades can be reviewed with the student for errors, but the policies will be followed. All students are held to the same academic expectation.

**VIII. Records**

- Complaints: Records are maintained for the purpose of determining if any pattern exists that could affect the quality of the program.
- Grievance: Records will include information on how each grievance was resolved and be used to identify trends that could affect the quality of the program.

If the investigation reveals that the program has or has not met substantial compliance with the STANDARDS following established accreditation policies one or two actions will result:

1. The program will submit a report and documentation within thirty (30) days of the notification of the JRCERT determination, demonstrating that the substantiated allegations have been corrected. All parties will be notified of satisfaction and resolution of the matter.

2. If the response is determined inadequate or lacking evidence of continuing substantial compliance with the STANDARDS or adherence to accreditation policies, the program may request a site visit as soon as feasible in that the allegations of non-compliance with accreditation policies may be investigated by the JRCERT.

Students have the right to contact the JRCERT with concerns regarding noncompliance issues.

**JRCERT**

**20 North Wacker Drive**

**Suite 2850**

**Chicago, IL 60606-3182**

**(312) 704-5300**

**Email: [mail@jrcert.org](mailto:mail@jrcert.org)  
[www.jrcert.org](http://www.jrcert.org)**

## **GRADING SYSTEM POLICY**

### **I. Purpose**

- To ensure that students are aware of the program's grading system for each course of study.

### **II. Consultations**

- Student consultations are held at the end of each semester. Grade reports will be distributed at this time. **(See Student's Progress Policy)** Additional consultations will be conducted when necessary.

### **III. Grading Scale**

- Didactic Grades are based on each course of study.
- The clinical grade is comprised of the following:
  - Clinical Performance Evaluation – 5%
  - Clinical Competency Evaluations average – 45%
  - Clinical Progress Report – 50%

#### **Didactic & Clinical Grading Scale**

**100 – 95%   A**  
**94 – 90%   B**  
**89 – 85%   C**  
**< 85%   F**

#### **G.P.A Score**

**A = 4.0**  
**B = 3.0**  
**C = 2.0**  
**F = 0**

## **STUDENT PROGRESS POLICY**

### **I. Didactic Education Progress**

- Didactic Education includes each course taken per semester.
- **Satisfactory Progress**
  - The student must maintain an 85% (C) average or higher in each didactic course per semester student consultation.
- **Unsatisfactory Progress**
  - If a student receives below an 85% (C) average in any didactic course at the end of any semester, the student will be placed on academic probation for **5 weeks** beginning the next semester. When the academic probation period is over, another consultation will be given to evaluate the student's status.
    - By the end of the probation period the student must have an 85% (C) or higher average or the student will be dismissed from the program
  - Academic probation is only offered if there is a continuation of the course into the next semester. Therefore, if the course is not continued the student will be dismissed.
  - At the completion of the course, if the students overall cumulative didactic average is not above an 85% (C), the student will be dismissed from the program.
  - If a student receives below an 85% (C) average in two or more courses per semester (didactic and/or clinical), the student will be given the option to withdraw or be dismissed from the program.

### **II. Clinical Education Progress**

- Clinical Education includes Clinical Performance Evaluations, Clinical Competency-Based Evaluations, and Clinical Progress Reports per semester.  
**Refer to the Clinical Education Procedure.**
- **Satisfactory Progress**
  - The student must maintain an 85% (C) average or higher in the Clinical Education.
- **Unsatisfactory Progress**
  - If the student receives below an 85% (C) average in Clinical Competency-Based Evaluations and/or Clinical Progress Reports per semester (prior to Clinical Final), one of two courses of action will follow:
    1. The student will be subject to immediate dismissal from the program
    2. The student will be placed on clinical probation for **5 weeks**.
      - When the probation period is over, another consultation will be done to evaluate the student's status.
      - If the student has not gained satisfactory progress, the student will be dismissed from the program.
  - Failure of two Clinical Progress Reports, with or without Clinical Final, will result in dismissal from program.

### **III. Dismissal**

- A student that is dismissed for unsatisfactory performance and/or progress either in didactic or clinical education, will not be permitted to re-apply to the program.
- Students wishing to challenge a grade for any component of the program must first appeal to the instructor of that component. If the student and instructor are unable to reach a satisfactory agreement, the student may initiate a formal grievance. The grievance procedure may be used for any action or decision that the student feels is unfair. **Refer to the "Due Process Policy".**

## STUDENT REPEAT POLICY

### I. **Purpose:**

- To describe the correct process when students have unsatisfactory images that need repeated. All images must be evaluated by a qualified radiographer to ensure diagnostic quality radiographs and patient safety. If a repeat image is warranted, the qualified radiographer along with the student must repeat the images. Deviation from this policy will result in disciplinary action.

### II. **Supervision**

- Unsatisfactory images are repeated by students under the **direct supervision** of a registered radiologic technologist. If a repeat image is warranted, a qualified radiographer must be present in the x-ray room to directly supervise the student.
- All images must be evaluated for quality by a qualified radiographer before being submitted for interpretation.
- All student repeats are documented on the clinical education log sheet.
  - **Under no circumstances is a student permitted to repeat an image without a technologist present in the room.**

### III. **Procedure**

- The radiologic technologist must check to be sure the following areas are achieved and correct before the student takes the exposure:
  - Room Readiness
  - Communication (adequate history)
  - Radiation Protection
  - Positioning of Part, Image, and Central Ray
  - Technical Factors
  - Patient Care/Human experience (ICARE)
  - Equipment Manipulation
  - Patient identification

### IV. **Documentation**

- Repeats shall be recorded in the appropriate portion of the student's clinical education log sheet along with the initials of the supervising technologist.
- The clinical coordinator will verify that students have the proper documentation of their repeats.
- The clinical coordinator will ensure that students and registered radiologic technologist are following the proper procedures for repeating unsatisfactory radiographs.
- The clinical coordinator will review the documentation of repeats and include the information in the clinical performance and/or clinical competency evaluation grades.

**V. Deviation from the Repeat Policy**

Failure to follow the repeat radiograph policy will result in following actions:

- **First Offense:** The student will receive consultation with written warning after the first offense and will be docked 5 percentage points off their overall Clinical Progress Report grade.
- **Second Offense:** The student will receive an automatic failure in clinical education resulting in immediate dismissal from the program.

## STUDENT SUPERVISION POLICY

### I. Purpose:

- To describe how students must be supervised during performance of radiographic examinations in the clinical education setting.

### II. Student Supervision

- During their clinical assignments, all students must be supervised by the following standards:
  - The clinical coordinator is responsible for supervision and evaluation of the radiography student at each clinical facility.
  - A registered radiologic technologist must review the request for the radiographic procedure to; determine student capabilities to successfully complete the examination, determine if patient condition contraindicates student performance of the study, and to determine the student's competency procedure performance. If there is any question during this determination, the radiographer must be present in the radiographic room.
  - Radiography students must be under direct supervision of a qualified radiographer prior to competency validation.
  - A technologist must accompany a student during mobile/surgical radiography regardless of competency level. Under no circumstances should a student perform mobile/surgical radiography without supervision.

### III. Direct Supervision

- **Direct supervision** is defined by the JRCERT as student supervision by a qualified radiographer who reviews the procedure in relation to the student's achievement, evaluates the condition of the patient in relation to the student's knowledge, is present during the conduct of the procedure, reviews and approves the procedure, and is present during student performance of any repeat of any unsatisfactory radiograph.
- All other medical imaging procedures are performed under the **direct supervision** of a registered radiologic technologist until the student achieves competency.
- Once competency is obtained, the student can perform under indirect supervision.

### IV. Indirect Supervision

- **Indirect supervision** is defined by the JRCERT as student supervision provided by a qualified radiographer immediately available to assist students regardless of the level of student achievement. Immediately available is interpreted as the physical presence of a qualified radiographer adjacent to the room or location where a radiographic procedure is being performed. This availability applies to all areas where ionizing radiation equipment is in use.
- All medical imaging procedures are performed under the **indirect supervision** of a registered radiologic technologist after a student achieves competency.

V. **RESPONSIBILITY**

- The clinical coordinator and/or registered radiologic technologist are responsible to correct and direct students in proper clinical procedure and professional conduct while in the clinical education setting.
- The clinical coordinator and/or registered radiologic technologist are responsible for critiquing images produced by students. They must check and approve the images in reference to image quality prior to submitting for interpretation. Direct supervision regarding film critique is mandatory throughout the program.

VI. **DEVIATION FROM STUDENT SUPERVISION POLICY**

Failure to follow the student supervision policy will result in following actions:

- **First Offense:** The student will receive consultation with written warning after the first offense and will be docked 5 percentage points off their overall Clinical Progress Report grade.
- **Second Offense:** The student will receive an automatic failure in Clinical Education resulting in immediate dismissal from the program.

## **TRANSFER CREDIT, EXPENSES, REFUND, & WITHDRAWAL POLICY**

### **I. Purpose**

- To ensure students are aware of the transfer credits, student expenses, and refund & withdrawal procedures.

### **II. Transfer Credits**

- The program generally does not grant credit for previous radiography training, and requests for such must be addressed to the program director.
- WellSpan Radiography Program will review credits and clock hours from other accredited institutions but does not guarantee acceptance as transferable clock hours for the program.
- WellSpan Radiography Program does not offer advanced placement into the program.
- Students are required to successfully complete all program courses.
- WellSpan Health Radiography Program is non-credit granting.

### **III. Lab Fees**

- Upon acceptance into the program the student will pay a \$100.00 deposit (non-refundable). The rest of the lab fees are due the 1st day of each semester.
- It is the responsibility of the student to have tuition payments in the school office by the due date.
- Only a check is acceptable for lab fees made payable to WellSpan Health Radiography Program. This fee is to be given to the Program Director.
- A cost of \$5.00 will be charged to students who write checks with insufficient funds.
- Failure to pay lab fees by the first week of each semester will result in a late fee of \$25. Payment may be deferred if the student is receiving financial aid from their “home” college or VA benefits.
- Students may not be permitted to continue past two weeks with an unpaid balance.
- An invoice for lab fees is not sent out but receipts are available upon request.
- WellSpan Radiography Program will not impose any penalty, including assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or requirement that a covered individual borrow additional funds, on any covered individual because of the individual's inability to meet his or her financial obligations to the institution due to the delayed disbursement from the VA under chapter 31 or 33.
- All expenses must be paid-in-full to meet graduation requirements and be confirmed by the program to sit for the ARRT registry exam.

### **IV. Other Expenses**

- Students are responsible for paying for their own meals, transportation, housing and health insurance.
- Students are required to purchase their own uniforms.
- Pre-admission health screen.
- Pre-admission child abuse and fingerprint clearances and criminal background checks
- Students must provide their own transportation to geographically dispersed clinical sites.

### **V. Books**

- Students are required to purchase textbooks before the first day of school.
- Textbooks sold to the student are not returnable to the school for reimbursement.

**VI. Withdraw/Termination**

- If the student decides to withdraw, they must notify the Program Director by submitting a letter of withdrawal. Upon receiving the letter of withdrawal, an exit interview will be conducted by the Program Director.
- After submitting a letter to the school, it will be determined if the student is eligible for a refund.
- If the student is eligible for a refund, lab fees paid prior to or during that semester will be refunded according to the following schedule:

**1st, 2nd, 4th & 5th Semesters**

Week I & II	80%
Week III & IV	60%
Week V & VI	40%
Week VII & VIII	20%
Week IX & X	0%

**3rd Semester**

Week I	-	80%
Week II	-	60%
Week III	-	40%
Week IV	-	20%
Week V	-	0%
